Q-12 Education Partnership Donor Levels

The Q-12 Education Partnership enables the business, scientific and nonprofit communities to take collaborative steps towards making changes to curricula and implementing tools that increase awareness, intuition, and literacy in quantum science at the K-12 level.

This partnership enables the distribution of classroom materials that have been developed in concert with key stakeholders from the quantum community encouraging hands-on classroom experiences.

This project is motivated by the need to connect learners and educators with high-quality, age-appropriate resources. We fundamentally believe it is imperative these resources are readily available to prepare the next generation with the tools to succeed in the industries of the future.

Donor Level 1: Quantum Education Visionary - \$250,000

Each donation of \$250,000 sponsors the training of 50 teachers. These teachers will be equipped with the skills and knowledge to introduce quantum concepts to children in their classrooms, impacting a total of 18,000 students over three years.

Number Needed: 4 donations x \$250,000 = \$1,000,000

Donor Level 2: Quantum Future Champion - \$100,000

Donors at this level contribute \$100,000 each. This donation will sponsor the training of 20 teachers, who will inspire and educate 7,200 students in quantum concepts over a three-year period.

Number Needed: 10 donations x \$100,000 = \$1,000,000
